Certificates of products

Certificates of products can be issued according to customers' requests.
(Material, sterilization, Pyrogen-free, Human DNA/RNase / D Nase-FREE)

Pharma scoop and Pharma spoon can meet various customers' requests

SS (Stainless Steel) spoon has much trouble with sterilization and management

Clean validation criteria are getting strict

Want to decrease the risk of cross-contamination as low as possible

Require spoons that can be used for harmful raw materials or sterilized

Certificate is necessary according to FDA regulation

Delivery and product quality of overseas counterparts are concerned. Don't know if certificate is issued.

Spoon design is not good and hard to use due to the design

Spoons that can be placed on a balance stably are required

Want less expensive disposable products

Sterilized scoop

Pharma Scoop

Sterilized spoon

Pharma Spoon

Easy Measurement

Notched scales are engraved inside the spoon for rough weighing

Flat bottom design

Bottom of the products are flat and they can be placed on the surface stably and horizontally

Slim head

It can be inserted into a sampling bin. These products are used for the bottles with small mouth
